

Talha Habib

FULL-STACK DEVELOPER

• Chitral · Pakistan

Full-stack developer working across the MERN stack and Laravel, currently a Computer Science student building toward a career in AI. I turn ideas into working, end-to-end products—from database and API design through to polished frontends—and am currently applying that to an AI-powered student assistant platform for Chitral's first AI hackathon.

Git, GitHub, MySQL, XAMPP, Google
Gemini API

ACHIEVEMENTS

- Recommended (REC) for Pakistan Military Academy (PMA) Long Course 155.
- Selected to compete in Chitral's first AI Hackathon with a self-built AI student-assistant platform.

EXPERIENCE

Full-Stack Web Application Developer

HindukushSoft Technologies · 2-month internship

- Built CRUD applications and REST APIs end-to-end using Laravel and React.
- Worked across migrations, models, controllers, routes, Blade views, and validation.
- Implemented authentication flows, including login, registration, and protected routes.

SELECTED PROJECTS

Student AI Assistant Platform

Laravel · React · MySQL · Google Gemini API

AI study tool combining notes, PDF, and image-to-quiz generation; timed tests with AI-explained answers; exam preparation; and a career-guidance chatbot. Built for Chitral's first AI hackathon.

HindukushSoft Internship Tasks

Laravel · React

CRUD applications and REST API tasks completed during a two-month internship.

Online Education Website

HTML · CSS · JavaScript

A full education-platform site build.

Amazon UI Clone

HTML · CSS

Pixel-matched clone of the Amazon desktop interface.

50 Projects in HTML, CSS & JS

HTML · CSS · JavaScript

A growing set of small front-end builds and experiments.

Web Projects

HTML · CSS · JavaScript

A collection of standalone web builds.
